

TOO BUSY TO PLOT YOUR OWN COURSE?

Do you spend more time planning where you're going on holiday than you do planning where you're going with your life?

- Have you made a financial plan for your future?
- If you have an investment strategy, will it cover your future needs?
- Is your health cover and salary protection sufficient to protect you if you have an accident onboard or on-shore?
- Are you paid in a different currency to your bank account? Are you getting the best exchange rates?
- Do you know which jurisdiction you should treat as your residency?

*"I am the master of my fate,
I am the captain of my soul"*
